PROJECTS

GetFresh

Farmers Market Review App

getfreshapp.us

[getFresh Repository](#)

- **JavaScript, Handlebars, Node.js, Express, PostgreSQL, and Bootstrap**
- Allows for account creation and login
- Uses Google and USDA APIs to search for farmers markets at any zip code
- Users can visit specific market pages and leave reviews

picnik

Picnic Planning App

picnik.ianprice.co

[picnik Repository](#)

- **JavaScript, React, Redux, Node.js, Express, PostgreSQL**
- Robust signup form takes in user's food and drink preferences
- Planning section provides food recommendations with accompanying wine/beer pairings via 3 APIs
- Park search shows weather data in that area using Google and weather APIs
- All information can be saved and sent out via an email invitation system where invitees can accept / decline via a link in the invitation

PREVIOUS WORK

Bartender

- Brezza Cucina *Feb 2016 - Feb 2017*
- Bartaco *Jan 2015 - Mar 2016*
- The Optimist *Mar 2012 - Mar 2016*

Skills

Working in a fast-paced environment and directly interacting with people required the ability to react quickly to a number of variables constantly. High customer volume and fluctuating peak service times necessitated solid planning and a strong teamwork mindset.
